Dear Liz,

I'm writing to you because I really liked to do the activities with you.

I appreciate you because you were nice with all the people, funny and patient. You also were a good instructor, you explained well and very persistent (like me! 😊).

My favorite activities were the "Egg Drop" (you were funny in the commercial with the photo). I liked this activity because we had to invent a thing to protect an egg with drinking straws and tape when it falls down. I liked when we climbed "Rattlesnake" mountain and when we slid down the mountain. It was really cool. The last day, when I went to the "Homestead" you were a good (false) teacher and I didn't know it was so severe! But my most favorite of all was the tubes sliding. When I slid down, it was very fast!!

So, next time, I hope you will appreciate the new students at the camp. Thank you! 😊

Bye!  
!! Sarah

Dear Brian,

My name is Gabriel and I am writing to you because you were my favorite instructor.

You were very nice and funny and you knew what you were talking about when you learn us some new things.

I really like the egg drop because it was funny and you were really well prepared. Thank you for this good time.

Gabriel

Dear Vivian,

I want to write you a letter because I found that we had a lot of fun with you. You help me a lot when we learn cross country skiing and I really want to show you that I really appreciate you and Pok-O-MacCready.

You know what, when we was at Pok-O I see qualities that I really like on you. Like when we did cross country skiing you was really patient and helpful. At The Mountain when you gave us Toblerone® because we go on hiking the mountain it was really generous

I really like to do cross country skiing with you it was fun. I hope I will retry some activity like hiking a mountain because you make me love this sport.

I really like to be at camp with you and the activity like low rope or the great meal. I hope I will return to Pok-O one day or the other

Sincerely

Alice Jodoin (Rosemary's class)
